.....for those that missed it previously.....

"Bowls is an ancient game dating from the Romans at least, and even William Shakespeare played and wrote about the game" .....

Excerpt from RICHARD 111: Act 111, scene iv

Queen: What sport shall we devise here in this garden, to drive away the heavy thought of care ?

1<sup>st</sup> Lady : Madam, we'll play at bowls.

Queen: Twill make me think. The world is full of rubs, and that my fortune runs against the bias.

And from the TAMING OF THE SHREW: Act IV, scene viii

Dairogerous: Hither Brutus ye lanky sod yonder, dispatch jack at my feet.

Brutus Ledbury: Sire, over hill and dale I shall ever be for ever late for thy contest.

But yonder grass is verily over fast. Where it cometh to stop is the winter of our discontent.

Dairogerous: Where for art thou? Tis not use to me there, tis in neighbours garden ye tosspot.

### What Bill Monington told me .....

A bar of chocolate has 8 insects' legs in it.

You are more likely to be killed by a donkey than in a plane crash.

A snail can sleep for 3 years.

Women blink twice as much as men.

There are more chickens on earth than people.

Right handed people live 9 years longer than left handed people.

### What the bus driver told me.....

Some people get bored with childhood.

They rush to grow up, and then long to be children again.

Other people lose their health trying to make money - then lose their money trying to restore their health.
